

How to change Languages in FastCAM®

Please follow steps below to alter the language in FastCAM.

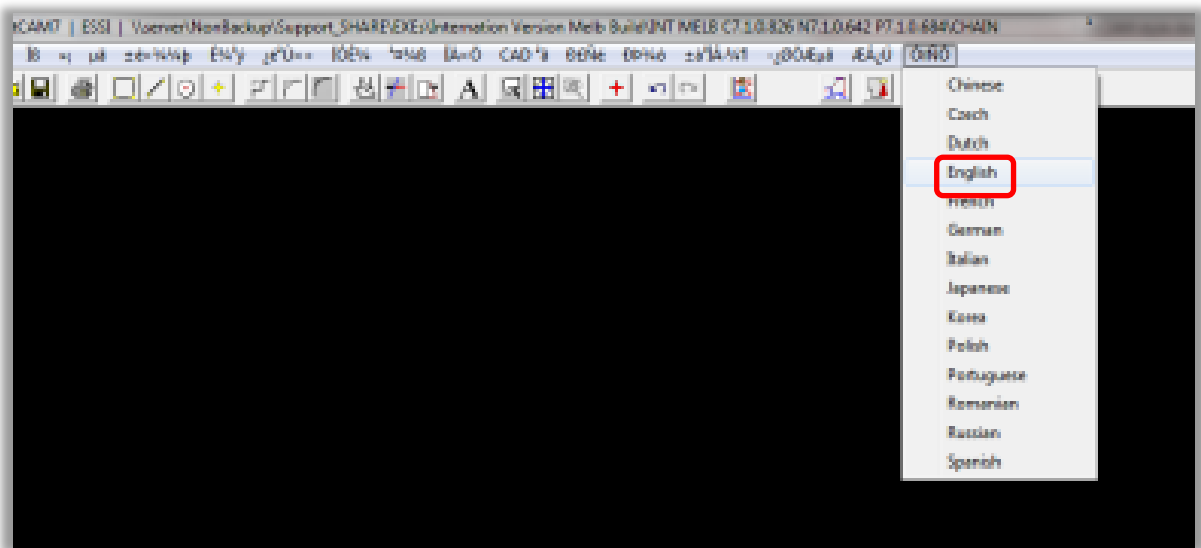

1. Open FastCAM

2. Move the mouse pointer to the tool bar located at the top of FastCAM. **Click** the last field as indicated below.

- Once the drop down box is **opened** several languages will appear. **Click** which language you would like.

- The selected language will be used from this point onwards unless changed by repeating this procedure from step 1.
